

Worksheet #2 – Indicator Table

PROGRAM NAME _____

Date: _____

CENTRE FOR
COMMUNITY
BASED RESEARCH

Evaluation Questions	Which short-term outcome objectives from Worksheet #1 do your evaluation questions measure?	List relevant indicators from information you already gather	Brainstorm some possible new quantitative indicators (numbers, percentages, rates of change, etc.)	Brainstorm some possible new qualitative indicators (stories, photos, examples, case studies)
1.				
2.				
3.				

A good indicator is something you can see or touch or hear that helps you to tell whether an outcome is being achieved or gives you an answer to your evaluation question. A good indicator involves as little interpretation as possible. A good indicator is part of your “operational definition” of your outcome. You need a variety of different indicators for each key question.
